

EQUAL OPPORTUNITIES IN EDUCATION AND SOCIAL RESPONSIBILITY

The Academy conducts long-term longitudinal following and investigation of understudies from the admission information (including analysis of student nationalities, enlistment methodologies, and collected information of enrollment viability) to improve the graduates' paths (counting different sorts of assessment comes about students' performance in further studies and employment, improving alumni paths through the "Entrepreneurship center" and the "Alumni Association", etc.).

Based on the learning outcomes of students, a factual investigation show is built to track the long-term learning process and adequacy from the time of admission. The results are utilized to set up a prescient demonstrate which serves as a basis for altering the educating and directing mechanism and the allocation of faculties resources.
